My esteemed colleague, Rav Zev Reichman, has written a wonderful compilation of halachic insights. He illuminates every page of Baba Metza, enabling English speakers unable to decipher rabbinic Hebrew to enjoy and be inspired by the brilliance of our holy Torah and its premier expositors.

This volume, as its predecessors, reflects Rav Reichman's passion to share the beauty of Torah with a broad cross-section of the Jewish community. As a teacher at Yeshiva University, and a rabbi in Englewood, he has shared his infectious enthusiasm and unconditional love with students and congregants on all levels of scholarship and observance. May he, and his dedicated and multitalented rebetzim Chana, be blessed together with good health and great naches from their children, as they continue their holy work for Hashem and His people. *Mordechai Willig*
